

Artarmon Vision Specialists joins Better Business Partnership sustainability project

Stuart and Natalie Schipp at Artarmon Vision Specialists recently had their prayers answered when they were introduced to Willoughby Council's "Success through Sustainability" **Better Business Partnership**.

Natalie says that the couple always had strong values personally to be mindful of their impact on the environment. But as a small family Optometrist practice, they sometimes found putting those values into action was financially out of reach. The Better Business Partnership has helped them to address their environmental concerns through a tailored action plan that involved some low-cost and no-cost strategies - even saving them money. They also found the action plan included strategies they could use to reduce their environmental impact at home.

Find out more and register your business online at the project website www.betterbusinesspartnership.com.au. You will then be assigned a dedicated Project Officer who will make a face to face appointment with you.

BETTER BUSINESS PARTNERSHIP PROCESS
